SUPPLEMENT TO
REPORT NO. 25X1X

There is a test station at Chkalovskaya ($38^{\circ}03'$
 $15^{\circ} E/55^{\circ}52'30'' N$). * A target range is some-
where near the installation. ** German engineers
who sometimes came from the range told PVS that
they were employed in a munitions factory. The
dialect of these engineers indicated that they
were from Berlin. ***

25X1A * comment. The Chkalovskaya Test Station was
previously reported See Annex
for pinpoint location and sketch of the station.

25X1A ** comment. Information on the target range
and testing of new ammunition is received for the
first time.

25X1A *** comment. Shchelkovo is the place nearest to
Chkalovskaya where German frequency experts work.
